THE MINERS' STRIKE.

Extraordinary Efforts of the Labor Loaders

To Induce the Miners to Ouit Work-Ar Implied Threat of Violent Means to be Used, and an Acknowledgment of Fallure If Not Unanimous.

PITTSBURGH, Pa., July 10.-The lines are tightening in all sections of the Pittsburgh mining district with the exception of a few spots.

The diggers in the New York and Cleveland Gas Coal Company mines are still working, but President Dolan and Secretary Warner are preparing for a move of a sensational point. It was ooked for Friday, but will be made no time to-day or to-morrow, the time not yet being agreed upon. President Dolan was out at Wickhaven yesterday, strengthening his cause there and will visit several of the river

mines before he returns. Telegrams and letters of an encour aging nature from the different parts of the district are pouring into the miners' officials. One of these, written by a miner on the Wheeling division of the Baltimore & Ohio, complains that the operators are taking unfair means to whip their men. The writer alleges that they are influencing the boarding house keepers issue attachments against the single men for the small amounts they owe and are also threatening the men naaaaaaaaaaaaaaaaaa having families with landlord's warrants and ejection if they don't return

Some of the reports from the Mongahela River district indicate that many of the miners of that section are

The Chamouni mines of the Time Coal Co., the mines of the Charles Jutte company, the Samuel O'Neill mines at Fayette and the Jones mines at Monongahela were at work yesterday. This condition of affairs is causing much excitement in the valley. A spe-

cial from Fayette City says: "Crowds of idle miners are gathering. and unless the miners of the places in operation lay down their tools at ice it is said a march of miners, beginning at Fayette City with a brass band leading, will be made and every man persuaded to quit work.

The miners when spoken to were in leadly earnest, and will not rest until every digger comes out and joins in

the general strike. The serious condition in the valley ass been made known to the miners' officials, and President Dolan will probably arrange a mass meeting at Lucy-

Corporal Jim McDonald Killed by Light-ning While Writing to His Affianced—A New York State Militia Camp at Pecks-kill Struck by a Thunderboll.

New York, July 13.-Lightning struck the state militia camp at Peekskill yesterday afternoon taking the Y. M. C. A. tent as its object. One man was killed and many others were badly hurt. An instant after the bolt struck the tent was down and in flames. A general alarm was sounded, and the guardsmen and ambulance corps responded at double quick. Almost every man who had been under the canvas was shocked by the lightning. Corporal J. G. McDonald, of company A, Twenty-second regiment, New York, was dead. Half a dozen of the men

were unconscious. The body of Corporal McDonald was the first taken from the mass of ruins. The surgeons worked over it for an hour or more, but their efforts were fruitless. Those who were knocked unconscious were revived, some of them with difficulty, and one or two of the men are still in a serious condition. Corporal McDonald's body was placed

in a tent and a guard assigned to duty over it, and the colors were placed at half-mast. Corporal McDonald was 22 a public reception, to which they were years of age. He was to have been married next Saturday evening, upon the return of the regiment from camp. A letter which McDonald had just written was to the young woman to whom he was to have been married. It was signed: "Yours until death.

Refreshing News from the Camp of the Christian Endeavorers. SAN FRANCISCO, July 12.-In strong contrast with the extreme heat which has prevailed throughout the middle and eastern states since July 1st are the present meterogical conditions on this coast. In San Francisco, where such a thing as a prostration on acnometer registered 50 degrees at five o'clock and at noon 65 degrees were recorded. Even in southern California, where it is always warmer than it is

here, the highest temperature recorded to-day was 66, in Los Angles.
